

# 180 Cluster

Tell bad cholesterol to do a “180”, because these clusters are loaded with Beta Glucan soluble fiber. Take one bite and you’ll agree it’s the most flavorful cholesterol-fighting weapon in town!

### Consumer Market Drivers

- Contains Beta Glucan soluble fiber to help meet the demand for cholesterol-reducing alternatives
- An excellent source of dietary fiber
- A crunchy “poppable” treat that tastes great

### Customer Focused Solutions

- Demonstrates hot extrusion expertise to create a great-tasting ingredient for this “poppable” snack
- Demonstrates capability to integrate great-tasting ingredients and flavor systems into a novel prototype
- Consistently sized, premium “poppable” snacks or cereal inclusions with minimal breakage
- Easy portion control with bite-size pieces

### Broadest Range of Ingredients and Flavors

Innovative combination of Kerry Technologies:

- Beta Glucan Crisps
- Toasted Oats
- Natural Flavors
- Solnuts

Allergens: Contains soy, and tree nut ingredients

Samples were produced in an environment that may have come in contact with dairy, wheat, soy, fish, peanut, tree nut, shellfish, sesame and egg allergens
